Pandemic changes to your organization

Pandemic-related changes to priorities and goals*

Briefly explain how the COVID pandemic has changed your organization's priorities and goals.

COVID-19 considerably impacted the North Central Florida YMCA. The Y suffered significant economic loss and setbacks due to suspending Y operations and delivering limited services. In order to navigate the COVID-19 international health crisis, the YMCA made the decision to reimagine its business model of how to best serve the community. The Y began shifting from a “gym and pool” to working in our purpose of strengthening community by providing childcare for first responders and essential workers, partnering with the schools to provide lunches & summer meals, collecting personal hygiene items for our unsheltered homeless populations, and hosting blood drives. The YMCA's goals shifted from focusing on membership to a focus of equity & inclusion to ensure access to programs, diminishing service gaps to address the program desserts that lie within our community and family support to provide programs to meet family needs. Based upon the youth developmental research and community health assessments, the YMCA created the YMCA Youth & Teen Center. This center is focused on teens 10-16 to address the juvenile arrest rates, and concerns of gun violence in the community by giving the teens a safe space to belong and call their own. This program is in collaboration with youth serving agencies and the City of Gainesville Parks and Recreations. The goal for this specific program will be to place Youth & Teen Center throughout Gainesville.

Pandemic-related changes to your organization's operations*

Please describe how your operations have changed during the pandemic from a staffing and service delivery standpoint.

The YMCA has gone through significant changes that start with the hiring a new President/CEO in 2019, then navigating an international health crisis/pandemic for the past two years. Operations has significantly changed in light of this ongoing pandemic. In March 2020, operations were suspended and 85% staff were furloughed. When the city began to reopen, we started recalling staff for limited programs and services. Our focus shifted to programs of specific needs (childcare, summer camp, swimming, virtual and limited in-person group exercise classes). These challenges present obstacles toward the ability offer programs due to staffing deficit and as a charity the inability to pay higher wages because of decrease in revenue. As the pandemic persist, we continued to address the needs related to youth and seniors and look toward different revenue streams such as partners through rental space within our facility. Through renting space, we were able to provide opportunities for programs through collaborations. After two years of this health crisis, our staffing has shifted from a staff of 99 to 45 with 88% representing part-time and seasonal. With staffing being an increasing problem for many nonprofits, we have turned to partnerships to continue offering programming without the continued burden of the inability to hire staff and re-evaluating our staffing structure.

Impact

Description of Need as Specifically Related to Coronavirus*

Please provide a description of how your organization continues to be impacted by the coronavirus pandemic, operationally and/or programmatically.

The continuous pandemic impact brings forth ongoing staff challenges as is relates to inability to hire & keep staff, the mental health of staff and most of all lack of revenue/funding. These challenges present obstacles toward the ability offer programs due to staffing deficit and as a charity the inability to pay higher wages because of decrease in revenue. Therefore, we are unable to compete with other business, organizations, agencies. Current staff have taken on additional roles/responsibilities also causing more

mental health stress management. Overall, the revenue impact finds us continuously searching for funding opportunities to ensure the ability to continue current services and grow programming. Programs decreased by 20% and staffing has decreased by 55%, but the need for youth and senior programming is increasing.

Population Impact*

Indicate if your services are directed at populations that have been disproportionately impacted by the COVID pandemic. (Identify at least one category: race, gender, ethnicity, geography, income)

The YMCA has seen disproportionately impact related to income within single parent & families. We work with the families to provide financial assistance by looking for funding and partners that can assist with their needs.

Disparity*

What disparity does this population experience that this program addresses? Examples: home ownership, income, health, educational attainment, etc.

The YMCA will address the health factor for youth/teens and seniors that have suffered an increase of anxiety and depression due to this health crisis resulting in risky behaviors or isolation related to their fears associated with the pandemic.

Supplemental Disparity Information

For organizations with gross revenue of more than \$1 million, show data to demonstrate existing disparities and impact of COVID on the population identified, including local data if possible. Examples of data can be related to health, socioeconomic status, housing, or factors specific to the program.

Mental health was ranked second among the ten health problems in Alachua County, as reported in the 2020 Alachua County Needs Assessment. Mental health needs or problems have been magnified and exacerbated by COVID-19. Additionally, COVID-19 has brought untimely deaths of loved ones and social isolation from family and friends, along with heightened attention to the social, economic, and health inequities in Gainesville. These COVID-19 consequences have intensified the prolonged stress, anxiety, sadness, and grief that negatively impact the mental health and wellbeing of many adults, particularly older adults and youth who live in poor, unsafe, and/or food insecure communities. Yet, there are limited mental health services in Gainesville, and those that are available are underutilized because of their high cost and/or location, and/or because of the stigma associated with pursuing mental health counseling.

Number of individuals served*

Indicate the total amount of individuals who will be directly impacted by this program.

Within the first year, the goal is to impact 200 youth and seniors through two specific programs (youth & teen center and an e-Health Smart program). This project will address youth and seniors physical, mental health and the juvenile arrest rates.

Board Diversity Comments

Over the past three years, our board diversity has made a shift as it relates to age demographics (from gen X, boomers, traditional to gen X and millennials), racial diversity will be at 40% individuals of color by the end of March 2022, members represent skill sets needed at this time (i.e. CPAs, financial advisors, banking, asset management, marketing/communications) and still working to increase female representations.

GSG Comments*

Please list any comments you would like for the evaluators to see when reviewing the application

Chris Polischuck: While the linkage between the services the YMCA provides and mitigation of mental health problems caused by the pandemic is not as clear and direct as with other, traditional mental health service providers, the agency did experience a loss of income from the pandemic as demonstrated on the revenue loss worksheet they submitted (\$403,412).

As such, they are eligible for an ARPA award of up to that amount under expenditure code 2.10 Aid to nonprofit organizations
